

## Heating and cooling

# 4-pipe connection sets

### 4-pipe connection set 3/4" + thermostatic valves Kvs 5.5

Article No.	Description
-------------	-------------

191290	Set 4-way connections 3/4" + 5.5 Kvs thermostatic valves
--------	----------------------------------------------------------

191830	Premium price thermostatic valve & lockshield valve with high flow
--------	--------------------------------------------------------------------

#### Application

Installations where the primary supply of hot and cold water are separated by 2 sources. For example a geothermal system.

For a proper functioning of the system we advise a 4-pipe zone control.

#### Components

- Thermostatic valves Kvs 5.5
- Brass fittings

#### Combine with

- Composite manifolds with a pump

### 4-pipe connection set 3/4" + thermostatic cooling valves Kvs 5.5

Article No.	Description
-------------	-------------

191331	4-way connection set 3/4" 5.5 Kvs including cooling valve + head
--------	------------------------------------------------------------------

#### Application

Installations where the primary supply of hot and cold water are separated by 2 sources. For example a geothermal system.

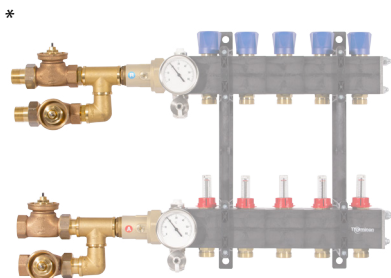

For a proper functioning of the system we advise a 4-pipe zone control.

#### Components

- Thermostatic valves Kvs 5.5
- Thermostatic cooling valve NC with head and capillary
- Brass fittings

#### Combine with

- Composite manifolds with a pump

### 4-pipe connection set + valves Kvs 5.5 for Industry manifolds

Article No.	Description
-------------	-------------

191292	Set 4-way connections 3/4" + 4x 5.5 Kvs thermostatic valves
--------	-------------------------------------------------------------

191291	Set 4-way connections 1" + 4x 5.5 Kvs thermostatic valves
--------	-----------------------------------------------------------

#### Application

Installations where the primary supply of hot and cold water are separated by 2 sources. For example a geothermal system.

For a proper functioning of the system we advise a 4-pipe zone control.

#### Components

- Thermostatic valves Kvs 5.5
- Brass fittings

#### Combine with

- Composite manifolds without a pump (Industry)

\* Excluding underfloor heating manifold
